

May 2011

**Scripps Clinic, Scripps Green Hospital Grand Rounds in Cardiovascular Disease
and Grand Rounds Conference Schedule**

Grand Rounds in Cardiovascular Diseases

Evans Conference Room, Scripps Green Hospital, fourth Tuesday of the month, year around, 7:30 – 8:30 a.m.

May 24

Transcatheter Aortic Valve Replacement (TAVR) Implantation Update

Objectives: To discuss the technique of TAVR; to critically analyze the data resulting from TAVR trials.

Speaker: **Paul Teirstein, MD**

Chief of Cardiology

Director, Interventional Cardiology

Scripps Clinic

La Jolla, CA

Grand Rounds

Timken Amphitheater, Scripps Green Hospital, September thru June, Wednesday's Noon - 1 p.m.

May 4- Fellow Research Presentations

Skin Testing to Clopidogrel and Radiocontrast Media to Investigate the Mechanisms of Post-Percutaneous Coronary Intervention (PCI) Rashes

Objectives: To describe a rash that may develop after PCI; to enhance awareness that post-PCI rash may or may not be due to Clopidogrel; and to recognize that skin testing can be used to evaluate the etiology of this rash.

Speaker: **Farinaz Farrahi, MD (Allergy/Immunology)**

Clinical outcomes using the Viabhan stent graft endoprosthesis in TASC D peripheral arterial lesions

Objectives: To describe the scope and clinical implications of peripheral vascular disease; to discuss treatment options of complex TASC D type lesions; to describe clinical outcomes of using PTFE coated endografts in complex peripheral lesions.

Speaker: **Peter Mohr, MD (Interventional Cardiology)**

Colorectal Cancer Screening in Women with Endometrial Cancer

Objectives: To discuss colorectal cancer screening in endometrial cancer; and review screening practices.

Speaker: **Marvin Singh, MD (Gastroenterology)**

Immunologic Effects of BRAF Inhibition in a Mutant Melanoma Model

Objectives: To describe BRAF mutant melanoma; to discuss potential immune target for BRAF therapy; and to discuss research findings.

Speaker: **Gregory Vosganian, MD (Hematology/Oncology)**

May 11 – Fellow Research Presentations

Characterization of the Kinetics of Negative Immune Regulator IL-10, in Patients who received Influenza Vaccination

Objectives: To identify positive and negative immune regulators; IL-12, IFN gamma, IL-10, TGF-beta, PD-1; to explain how negative immune regulators function to prevent an overactive positive immune response; to explain one possible mechanism of why some patients have no response to the influenza vaccination.

Speaker: **William Chin, MD (Allergy/Immunology)**

The Spectrum of Esophageal Motility Disorders in Two Different Populations

Objectives: To discuss an overview of esophageal motor disorders in clinical practice; and to Review the use of motility testing using high resolution manometry.

Speaker: **Steven DiLauro, MD (Gastroenterology)**

Prediction of Symptom Progression in Asymptomatic Patients with Severe Aortic Stenosis and the Relation to Valve Dome Shape

Objectives: To review the epidemiology and importance of aortic valve stenosis; to review therapeutic decision-making and options for in patients with severe aortic stenosis; and to review the relationship of hemodynamic changes in the prognosis of aortic valve disease.

Speaker: **Stephen Hu, MD (Cardiology)**

Microarray Profiling of Auto Antibodies in Scleroderma

Objectives: To review clinical significance of autoantibody profiling in Scleroderma; to discuss microarray protein expression techniques to study fine specificities of antibodies; and to review findings of study: identification of antigens differentially reacting with Scleroderma sera.

Speaker: **Vaani Jegapragasan, MD (Rheumatology)**

May 18 – Resident Research Presentations

Aspirin Exacerbated Respiratory Disease (AERD) and Asthma: Are the Two Correlated?

Objectives: To review AERD; to discuss the impact of AERD; and to compare asthma severity in non-AERD to AERD patients.

Speaker: **Kevin Farnam, MD**

Drivers of Obesity

Objectives: To define the number of patients struggling with obesity that have "cravings" for inappropriate high calorie foods; to recognize why and how patients believe that they have become obese; and to discuss patient preferences for specific treatments.

Speaker: **Pallabi Sanyal, MD**

Predictors of Inpatient Cardiopulmonary Resuscitation

Objectives: To review previous research on inpatient CPR Outcomes; to discuss predictors of inpatient CPR outcome at SGH; and to discuss how this information can be applied at SGH.

Speaker: **Alex Ko, MD**

Is Non-Sustained Ventricular Tachycardia (NSVT) Important?

Objectives: To identify incidence of NSVT; to describe associated factors with NSVT; and to discuss correlation between NSVT and morbidity, mortality.

Speaker: **Heidi Fagerlund, DO**

May 25 - Resident Research Presentations

Designing a Humanized Monoclonal Antibody Against C. Difficile Toxin

Objectives: To review C. Difficile infection; to describe treatment of resistant C. Difficile infection; to discuss the overview of the new potential approach to treating C. Difficile infection.

Speaker: **Vikram Garg, MD**

A "Silent Desensitization" in AERD Patients: A Masked Reaction or Wrong Diagnosis?

Objectives: To discuss the AERD population; to discuss the role of Aspirin Desensitization; to discuss the subgroup of patients who have no clinical reaction during aspirin desensitization "non-reactors"; to discuss hypothesis of "silent desensitization" vs wrong diagnosis in non-reactor subgroup.

Speaker: **Lauren Schuler, MD**

Evaluation of the impact of breast-specific gamma imaging (BSGI) on pre-surgical planning for patients with newly diagnosed breast cancer"

Objectives: To describe breast cancer-specific gamma imaging; to review indications for use of BSGI; to evaluate clinical utility of BSGI in pre-surgical planning for patients with newly diagnosed breast cancer.

Speaker: **Michelle Phillips, MD**

The Effect of Double-Dose Clopidogrel and Prasugrel in Individuals with High On-Treatment Platelet Reactivity and Known, Relevant CYP2C19 Genotype Variants –Results from the PREDICT Pilot Study and the Larger Scripps Clinic Registry

Objectives: To demonstrate the impact of CYP2C19 cytochrome gene variants on platelet reactivity in a real-world registry of individuals on clopidogrel post-coronary intervention at Scripps Clinic in La Jolla, California; to determine whether these cytochrome gene variants are better predictors of high on treatment platelet reactivity (HTPR) than known clinical factors; to determine whether doubling the clopidogrel maintenance dose or substituting prasugrel in individuals with high on treatment platelet reactivity HTPR provides incremental and adequate platelet inhibition in patients carrying CYP2C19 gene variants.

Speaker: **David Cohen, MD**

May 2011
Scripps Clinic, Scripps Green Hospital Tony Moore Internal Medicine
Conference Schedule

The Tony Moore Internal Medicine Conference

Timken Amphitheater, Scripps Green Hospital, September thru June, Thursday's noon - 1 p.m.

May 5

The Philip A. Higginbottom Zebra Case Conference (Title and Objectives not disclosed)

Speaker: **Adnan Begovic, MD**
Division of Hospital Medicine
Scripps Clinic
La Jolla, California

May 12– Resident Case Presentations

Fibrosing Mediastinitis

Objectives: To review the differential diagnosis and diagnostic challenges; and to discuss treatment options.

Speaker: **Benton Ashlock, MD**
Internal Medicine Resident, Scripps Clinic Green Hospital

Bronchial Carcinoid Tumor

Objectives: To review a case of bronchial carcinoid tumor; to describe the diagnosis of bronchial carcinoid tumors; and to discuss the treatment of bronchial carcinoid tumors.

Speaker: **Osagie Bello, MD**
Internal Medicine Resident, Scripps Clinic Green Hospital

May 19 - M & M Conference- in conference room 226A & B ** (Note: CME credit will not be awarded for attending this conference)

May 26 – Round Table Discussion

What's New in Cutaneous Laser Surgery

Objectives: To discuss laser tissue interactions; to review the medical and cosmetic roles of laser; to describe the role of neurotoxins and fillers in synergy with lasers.

Speaker: **Edward Ross, MD**
Division of Dermatology
Scripps Clinic
San Diego, CA

CME Statements

Accreditation

Scripps Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide 1.0 *AMA PRA Category 1 Credit(s)*™ continuing medical education for physicians.

Disclosure

It is the policy of Scripps Health to ensure balance, independence, objectivity, and scientific rigor in all sponsored educational programs. Course Directors, planning committees, faculty and all others who are in a position to control the content of any educational activity sponsored by Scripps Health are required to disclose any real or apparent conflicts of interest related to the subject matter of the educational activity.

Cultural and Linguistic Competency

This activity is in compliance with California Assembly Bill 1195 which requires that all CME activities comprising a patient care element include curriculum addressing the topic of cultural and linguistic competency. The intent of this bill is to ensure that health care professionals are able to meet the cultural and linguistic concerns of a diverse patient population through effective and appropriate professional development. Cultural and linguistic competency was incorporated into the planning of this activity. **For additional information regarding California Assembly Bill 1195 please visit www.scripps.org/clinics to access the Cultural and Linguistic Competency Guide.**

For additional information and to view available course brochures, please contact Scripps Conference Services & CME at:
www.scripps.org/conferenceservices Phone: 858-652-5400 Fax: 858-652-5565 Email: Med.edu@scrippshealth.org
