

THE 2012 SAN DIEGO DAY OF TRAUMA

Life in the Balance – Critical Trauma Interventions

November 2, 2012

Hyatt Regency Mission Bay
San Diego, California

COURSE INTRODUCTION

Course Overview

The 2012 San Diego Day of Trauma will focus on critical trauma interventions and the key steps to ensure survival after severe injury. Conference topics will include airway management, head and neck hemorrhage, severe fractures, pediatric trauma, and the emergency surgery and critical care principles that are essential to the survival of patients with devastating injuries. Our nationally renowned faculty will present the state of the art management of various life threatening emergencies. Conference speakers will include specialists in the fields of pre-hospital care, trauma surgery, and critical care medicine. Lectures, live debates, and interactive sessions will engage attendees and promote improved patient outcomes.

Conference Highlights

- Specialists from all aspects of trauma care represented
- Multiple panel discussion segments with ample question and answer time with faculty
- Extended case presentation segment focusing on real-life trauma cases
- American Red Cross Blood Drive
- Conference recording sent to all attendees 6 weeks after the conference

Educational Objectives

After attending this activity, participants should be able to:

- Assess and discuss the critical steps in initial stabilization of the injured.
- Illustrate the priorities in the pre-hospital phase of life-saving trauma care.
- Summarize key decision points in direct life-saving intervention.
- Demonstrate major techniques in early airway control.
- Apply the measures for bleeding control in hemorrhagic shock.
- Indicate the priorities in early volume infusion for treating hemorrhagic shock.
- Choose the appropriate damage control procedures to stabilize critical injuries.

Target Audience [Trauma Specialists, Critical Care Specialists, Emergency Medicine Specialists, Pre-hospital Personnel, First Responders]
