No refunds or credits will be given to “no shows.”

HBS®: ESSENTIAL CARE FOR EVERY BABY® AND ESSENTIAL CARE FOR SMALL BABIES® MASTER TRAINER COURSE

WHAT ARE THE ESSENTIAL CARE FOR EVERY BABY® AND ESSENTIAL CARE FOR SMALL BABIES® COURSES?

THE ESSENTIAL CARE FOR EVERY BABY (ECEB) AND ESSENTIAL CARE FOR SMALL BABIES (ECSB) COURSE are part of the Helping Babies Survive® evidence-based educational program which focuses on care of the newborn. ECEB focuses on care after birth throughout the first day of the newborn's life, until the time of discharge. The ECSB curriculum focuses on care of the well small baby. The combined courses will equip health care providers with skills and tools to make changes and improve care in global areas with high infant mortality and low resources.

This ECEB®/ECSB® workshop will include the Provider, Facilitator and Master Trainer components. Each participant will demonstrate skills for assessing risk and caring for infants in the first hours of life, complete checklists, discuss action & evaluation steps and implementation strategies in low resource settings.

WHO SHOULD ATTEND?

This ECEB/ECSB Master Trainer and Facilitator Workshop is designed for those with experience caring for newborns and who will train health care providers as well as birth attendants in low resource settings.

HOW TO I PREPARE FOR THIS WORKSHOP?

Participants will be expected to have access to or have ordered the ECEB and ECSB training materials and Equipment.

Prepare for the course by reading the HBB® Learner Workbook and HBB® Facilitator Flip Chart and review the HBB® web site hbs.aap.org in advance of the workshop. Please bring all materials and equipment to the course.*

DEMONSTRATION EQUIPMENT:

1. Dark skin OR Light skin Premie Natalie Mannequin \$95
2. MamaBreast \$95
<https://tinyurl.com/shopECEBECSB>

TEACHING MATERIAL:

3. ECEB Facilitator Kit: \$105
<https://shop.aap.org/essential-care-for-every-baby-facilitator-set-helping-babies-survive/>
4. ECSB Facilitator Kit: \$105
<https://shop.aap.org/essential-care-for-small-babies-ecsb-facilitator-set/>

*Pairs of colleagues attending the course together may share Demonstration Equipment and Teaching Materials and but are advised to have their own for future use and review. Written Teaching Materials are available for free download to review at <https://internationalresources.aap.org>.

Helping Babies Breathe, the neonatal resuscitation component of Helping Babies Survive will not be taught at this course. For more information about Helping Babies Survive and other course offerings visit <http://hbs.aap.org>
