Course Introduction

Course Overview
The 13th Annual Brain Injury Rehabilitation Conference is designed to provide a clear understanding of the need for multidisciplinary strategies in the management of patients with brain injuries. A renowned faculty of interdisciplinary specialists will present the latest in research and outcomes from a variety of medical perspectives. Topics include interventions and management for medical and physical rehabilitation as well as cognitive, emotional, and social problems common to brain injury patients. A strong emphasis on the need for increased quality, efficiency, and value will be a consistent theme throughout the course as we continue our quest for excellence in brain injury treatment and rehabilitation.

Target Audience
- Physicians
- Nurses
- Physician Assistants
- Physical Therapists
- Occupational Therapists
- Speech-Language Pathologists
- Social Workers and Case Manager
- Others involved in the care of patients with brain injuries

Educational Objectives
After attending this activity, participants should be able to:
- Describe the epidemiology of brain injury and its resultant impairments, disability, and psychosocial impact.
- Integrate new developments in science and medicine into practice for brain injury rehabilitation.
- Utilize multidisciplinary strategies for the management of psychological and behavioral problems common to brain injury including behavior management.
- Identify neurophysiological mechanisms involved in brain plasticity and their potential application to improving practice and service provision across rehabilitation disciplines.
- Discuss the life long, post-acute rehabilitation needs of individuals with traumatic brain injuries and the importance of developing long term care plans.
- Review the latest rehabilitative and assistive technology tools for individuals with traumatic brain injuries.
- Identify current robotic technologies in the role of brain injury rehabilitation.
- Discuss the unique needs and approaches for pediatric brain injury rehabilitation.
