

Project Dulce: Diabetes Peer Educator Training Program

Thursday, 5/31, Friday, 6/1 & Saturday, 6/2

Scripps Whittier Diabetes Institute - La Jolla, California

Overview

Covers basic concepts in diabetes management, including prevention of complications, nutrition, physical activity, goal setting, and standards of care. Trains peer diabetes educators to deliver diabetes education and skills training, with a specific focus on underserved and low literacy populations. Guides professionals in clinical and community organizations in establishing a sustainable diabetes education program.

Conference Highlights

- Plenary talks from nationally recognized experts
- In-depth hands on and small group sessions
- Demonstration of skill building activities
- Practice teaching and facilitation techniques
- Access to the Diabetes Among Friends lesson plans and supplemental material in English and Spanish

Educational Objectives

After attending this live activity, participants should be able to:

- Describe the latest standards of diabetes care and primary treatment methods
- Name the 7 self care behaviors that guide effective diabetes self-management.
- Identify patient education material appropriate for low literacy populations
- List the types and mechanism of action of most frequently used diabetes medications
- Use creative teaching techniques to engage participants and facilitate learning
- Clarify the elements of a DSME program required to achieve ADA or AADE recognition
- Identify effective methods of participant recruitment and retention
- Describe how to evaluate your diabetes education program
