Primary Care in Paradise
Medical Specialties from the Primary Care Perspective

April 4–7, 2022
Hyatt Regency Maui
Lahaina - Maui, Hawaii

Visit www.scripps.org/paradisecme for conference updates!
Scripps Health’s Primary Care in Paradise conference was designed for primary care physicians and the collaborative care team and will present content from their unique perspective. This important CME conference will educate and promote improved patient outcomes in a broad range of therapeutic areas commonly encountered in the busy primary care practice. In addition to an overview of the history and current science of a variety of specialty areas, content will be presented in a very practical, patient-focused manner relevant to the specific primary care setting and challenges.

Target Audience
- Family Medicine
- Internal Medicine
- General Practitioners
- Advanced Practice Providers
- Nurses

Educational Objectives
After attending this live activity, participants should be able to:
- Integrate current trends in preventive health care into patient care strategies.
- Effectively discuss with patients their personal responsibilities in prevention and treatment.
- Employ new collaborative care team strategies that enhance the prevention, diagnosis and management of various medical conditions encountered in the office practice.
- Access and/or recommend resources for both physicians and patients to acquire additional information pertinent to a range of therapeutic areas.
- Manage the specialist referral process: assess when to refer, recognize what the specialized treatment will consist of, and determine the role of the primary care physician in cohesive care and follow-up.

**Course Agenda**

**Three Part Pre-Conference Workshop**

**Dermoscopy and Melanoma: What Have You Been Missing?**

**Michael L. Van Buskirk, MD**  •  **Tuesday–Thursday, 6:30–7:30 a.m. each day**

This interactive, three-part skills workshop is designed for physicians looking to introduce dermoscopy into their practice or further their skill set. Part one will offer an introduction to dermoscopy and its use in identifying melanoma skin cancer. Part two will consist of reviewing real-life cases and slides allowing participants to apply what they have learned thus far. Part three will offer participants the chance to use dermoscopes to conduct skin exams. The workshop will be taught to a limited audience allowing for extensive interaction with the expert speaker. Participants in attendance will earn an additional 3 AMA PRA Category 1 Credits™.
