Primary Care in Paradise

Medical Specialties from the Primary Care Perspective

March 27–30, 2023
Hyatt Regency Maui
Lahaina–Maui, Hawaii

Visit www.scripps.org/paradisecme for complete conference details and to register!
Scripps Health’s Primary Care in Paradise conference was designed for primary care physicians and the interdisciplinary care team and will present content from their unique perspective. This important CME conference will educate and promote improved patient outcomes in a broad range of therapeutic areas commonly encountered in the busy primary care practice. In addition to an overview of the history and current science of a variety of specialty areas, content will be presented in a very practical, patient-focused manner relevant to the specific primary care setting and challenges.

Target Audience
- Family Medicine
- Internal Medicine
- General Practitioners
- Advanced Practice Providers
- Nurses

Educational Objectives
After attending this live activity, participants should be able to:

- Integrate current trends in preventive health care into patient care strategies.
- Effectively discuss with patients their personal responsibilities in prevention and treatment.
- Employ new interdisciplinary care team strategies that enhance the prevention, diagnosis and management of various medical conditions encountered in the office practice.
- Access and/or recommend resources for both physicians and patients to acquire additional information pertinent to a range of therapeutic areas.
- Identify and address health disparities that could negatively impact patient care within the clinical encounter.
- Manage the specialist referral process: assess when to refer, recognize what the specialized treatment will consist of, and determine the role of the primary care physician in cohesive care and follow-up.
