Course Overview

Scripps Health's Annual Oncology Update is designed to offer clinicians a comprehensive overview of the most recent advances in the treatment of various oncologic malignancies. During this one-day educational course, clinical experts in the fields of hematology and oncology will provide an overview of key findings from practice changing studies and the latest clinical data as presented at the 2017 annual meeting of the American Society of Clinical Oncology (ASCO). Invited speakers will review exciting and important abstracts presented at the ASCO meeting and discuss their relevance to the clinical oncology practice.

Educational Objectives

After attending this live activity, participants should be able to:

- Discuss innovative and practice changing data presented at the 2017 ASCO Annual Meeting.
- Assess advances in clinical oncology research.
- Evaluate the role of new diagnostic techniques and therapeutic approaches in treating a number of oncologic malignancies.
- Incorporate new, evidence-based treatment strategies into clinical practice.
