Course Description
Interventional cardiology is one of the most explosive disciplines in the history of medicine. In a short 40 years the role of the cardiologist has transformed from a diagnostic to therapeutic one, by percutaneously repairing coronaries, valves, ASDs, VSDs, carotids, peripheral arteries, and more. The pace of progress in interventional cardiology procedures is astounding and requires constant education and the sharing of ideas and concepts in order to continue the learning process. The unique format of this summit using only complex case presentations instead of lectures encourages a free exchange of ideas and provides participants a rare chance to engage world experts in an intimate setting.

Educational Objectives
After attending this activity, participants should be able to:
• Integrate new products and techniques into daily practice.
• Assess complications early and problem solve.
• Define proper decisions for STEMI patients.
• Evaluate unprotected left main patients for optimal PCI vs CABG.
• Describe techniques to avoid complications based on complex TAVR case presentations.
• Demonstrate technical approaches to complex peripheral interventions.
• Determine when to use Impella™ vs ECMO for hemodynamic improvement in patients with cardiogenic shock.
• Evaluate antegrade vs. retrograde approaches to PCI treatment for chronic total occlusions.
• Assess wire escalation in CTOs.
• Discuss how to manage perforations with coils and covered stents.

Course Director
Richard A. Schatz, MD, FACC
Research Director, Cardiovascular Interventions
Scripps Heart, Lung and Vascular Center
San Diego, California

Faculty
John S. Douglas, Jr., MD
Director, Interventional Cardiology
Emory University
Atlanta, Georgia

James B. Hermiller, Jr., MD, FACC, MSCAI
Director, Interventional Cardiology
Director, Interventional Cardiology Fellowship
St. Vincent Heart Center
Indianapolis, Indiana

William W. O’Neill, MD, FACC, FSCAI
Medical Director, Center for Structural Heart Disease
Henry Ford Health System
Detroit, Michigan

James P. Zidar, MD, FACC, FSCAI
Professor, University of North Carolina Healthcare
North Carolina Heart & Vascular
Raleigh, North Carolina

Agenda
Monday, September 9, 2019
7:30 a.m. Registration
7:45 a.m. Case Discussion with Breakfast
9:45 a.m. Break
10 a.m. Case Discussion
Noon Adjourn and Lunch To Go

Tuesday, September 10, 2019
7:30 a.m. Registration
7:45 a.m. Case Discussion with Breakfast
9:45 a.m. Break
10 a.m. Case Discussion
Noon Adjourn and Lunch To Go
Dr. Richard Schatz Interventional Cardiology Summit
September 9-10, 2019 – Quail Lodge • Carmel, California

Conference Location and Hotel Information

Quail Lodge & Golf Club
8205 Valley Greens Drive
Carmel, California 93923

Contact Scripps Health to inquire about discounted rooms. Subject to hotel availability.
