Live Satellite Case Transmissions

Sixth Annual
Structural Heart Intervention and Imaging: A Practical Approach

February 8-10, 2017 – San Diego Marriott • La Jolla, California

Visit www.scripps.org/structuralheartintervention for course updates!
Course Overview

Transcatheter structural heart disease intervention is a rapidly growing part of clinical care in adult cardiology. Experts expect structural heart disease procedures to grow by as much as 30% in the next decade. Interventionists will need to be skilled in many more procedures than in the past. These procedures require the application of new interventional techniques while integrating imaging before and during treatment. This is an increasingly complex process that relies on systematic and effective collaboration between cardiovascular imaging specialists and interventionists, among others.

Scripps’ Structural Heart Intervention and Imaging conference is designed to provide a practical, cutting-edge, and case-based assessment of the emerging area of structural heart disease intervention and interventional cardiovascular imaging, with an emphasis on the collaborative nature of these procedures across many disciplines within cardiology. The expert faculty will include interventionists, invasive cardiologists, echocardiographers, electrophysiologists, cardiac surgeons, anesthesiologists, and sonographers. Faculty will discuss clinical guidelines on patient selection, pre-procedural assessment, procedural tips, techniques and challenges (including concurrent imaging) during the performance of the procedures and conclude with assessment of outcomes and future directions.

Conference Highlights

- Multidisciplinary expert faculty emphasizing a team approach to care
- Combination of educational formats including live demonstrations of catheter-based structural heart disease interventional procedures with intraprocedural imaging, clinical-pathological correlations with ex vivo cardiac specimen, and pertinent didactic lectures
- Interactive formats, panel discussions, Q&A, and more
- Live satellite case transmissions
- Expanded satellite symposia and hands-on workshops
- Mobile conference app with access to course materials and recordings from the convenience of your mobile device or computer

Educational Objectives

After attending this live activity, participants should be able to:

- Assemble the appropriate multidisciplinary team, imaging technologies and catheter equipment to perform structural heart disease interventions.
- Identify complications of catheter-based therapies for structural heart disease and safely manage them with various procedural techniques.
- Apply a comprehensive approach to the assessment of the aortic, mitral, and tricuspid valves, and the interatrial septum, using echocardiography (TTE, TEE and ICE), CT, and MRI for the purpose of the interventional treatment of these cardiac structures.
- Interpret current clinical data in order to optimize the treatment of patients with aortic stenosis, mitral regurgitation and atrial fibrillation.
- Discuss tricuspid anatomy and function and assess the implications of tricuspid regurgitation and transcatheter techniques for transcatheter tricuspid valve repair.
- Cite the current indications for catheter-based techniques, including transcatheter aortic valve replacement (TAVR), transcatheter mitral valve repair/replacement, left atrial appendage closure, ASD, and paravalvular leaks.
- Evaluate the patient with cryptogenic stroke and identify the patient in whom PFO closure is appropriate.
- Integrate emerging data into TAVR decision-making regarding surgical risk, including low and intermediate-risk patients.
- Interpret and incorporate CT imaging before and after LAA closure.
- Integrate basic and advanced imaging and catheter techniques for transseptal puncture for the purpose of LAA closure, transcatheter mitral valve repair and paravalvular leak closure.
- Select the appropriate type and size device for TAVR, LAA closure, PFO closure, and other structural interventions.
- Apply echocardiographic findings to determine optimal strategy for transcatheter mitral valve repair.
- Employ specific catheter techniques and technologies for the transcatheter repair of simple and complex aortic and mitral paravalvular leaks.
- Incorporate advanced techniques for transcatheter mitral valve repair, TAVR, PFO, ASD, and LAA closure in the setting of challenging anatomy and/or patient co-morbidities.
- Avoid common pitfalls in the application of the newer imaging modalities.

Faculty Disclosure

In accordance with the ACCME Standards for Commercial Support, course directors, planning committees, faculty and all others in control of the educational content of the CME activity must disclose all relevant financial relationships with any commercial interest that they or their spouse/partner may have had within the past 12 months. If an individual refuses to disclose relevant financial relationships, they will be disqualified from being a part of the planning and implementation of this CME activity. Owners and/or employees of a commercial interest with business lines or products relating to the content of the CME activity will not be permitted to participate in the planning or execution of any accredited activity. A complete listing of disclosures associated with this program can be found on the conference website: www.scripps.org/structuralheartintervention and in the mobile conference app: www.grupio.com/SHI17.
### HANDS-ON TRANSSEPTAL WORKSHOP

**Non-CME Activity Sponsored By Baylis Medical and Boston Scientific Corporation**

8 a.m. – 4 p.m.

**Transseptal Workshop**
Matthew J. Price MD, Paul Sorajja, MD and Miguel Valderrában, MD

This hands-on workshop is intended for the practicing interventional cardiologist who is planning on performing procedures involving left atrial access, such as, but not limited to, transcatheter mitral valve repair, LAA closure, and mitral valvuloplasty. Upon completion of this activity, the physician should be able to utilize best practices in transseptal puncture to avoid complications. The agenda will include a morning session of didactics, dissection, and simulators, and an afternoon animal lab with hands-on catheter manipulation.

This workshop is complimentary for the first 18 physician registrants to conference. Transportation from the Marriott to the training facility will be provided. **Physicians must email education@baylismedical.com to register for this session.**

### IMAGING SYMPOSIUM AND HANDS-ON WORKSHOP

**EMPHASIZING 3D ECHOCARDIOGRAPHY**

**Non-CME Activity Supported by GE Healthcare and Philips Healthcare**

These hands-on workshops are designed to enhance the skill set for echocardiographers, cardiac sonographers, invasive and interventional cardiologists involved in pre-operative and intra-operative imaging for structural intervention. Expert imaging faculty will guide the audience through the analysis of cardiac anatomy using three-dimensional echo datasets on individual work stations. Instruction will emphasize display of anatomy and measurements for pre-procedural analysis and intra-procedure guidance for TAVR, transseptal puncture, LAA and ASD closure, and mitral valve procedures.

**Each session is limited to the first 50 participants.**

Visit [www.scripps.org/structuralheartintervention](http://www.scripps.org/structuralheartintervention) for course updates!

### WEDNESDAY AFTERNOON SYMPOSIUM

**This symposium is supported, in part, by an educational grant from Boston Scientific Corporation in accordance with ACCME Standards for Commercial Support.**

4-6 p.m. **Discussion with the Experts: Challenging Cases in Structural Heart Intervention**
Moderator: Matthew J. Price, MD
Discussants: Jacqueline Saw, MD, Paul Sorajja, MD, Miguel Valderrában, MD

### WEDNESDAY DINNER SYMPOSIUM

**Focus on Mitral Regurgitation Diagnosis and Treatment**

**Non-CME Activity Supported by Abbott Vascular**

6 p.m.  Final Adjournment
Conference Location & Hotel Information

San Diego Marriott La Jolla

4240 La Jolla Village Drive
La Jolla, California 92037
Reservations: 800-228-9290
Phone: 858-587-1414

Rates and Reservations
We are fortunate to have obtained special low rates at the hotel starting at $219 per night for a single or double room (plus tax and parking). Discounted overnight self-parking will be available to those participants who book under the Scripps room block.

Make your reservations early! A block of rooms is being held for us at the $219 rate until Thursday, January 19, 2017. After this date, reservations will be accepted based on space availability and the special room rate may not be honored. Be sure to request the Scripps Structural Heart Intervention conference when making reservations.

Download the Scripps CME App For Your Smart Phone or Tablet!

All conference information including a detailed agenda, faculty listing, faculty disclosures, industry support, attendee list, and course materials can be found on the free Scripps CME conference app for smart phones, tablets, and laptop computers. To download the app on your smart phone or other device visit the appropriate app store and search ScrippsCME (must be one word). The app is free of charge and will be continuously updated during and after the course.

To access the site using a web browser: http://www.grupio.com/SHI17

Accreditation and Disclosure

Physicians
Scripps Health is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

Scripps Health designates this live activity for a maximum of 21 AMA PRA Category 1 Credit(s)™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Credit Breakdown
Wednesday Afternoon Symposium: 2
General Conference (Thurs-Fri): 19

Nurses
For the purpose of recertification, the American Nurses Credentialing Center accepts AMA PRA Category 1 Credit(s)™ issued by organizations accredited by the ACCME. For the purpose of re-licensure, the California Board of Registered Nursing accepts AMA PRA Category 1 Credit(s)™. The majority of state boards accept AMA PRA Category 1 Credit(s)™ as meeting continuing education requirements for license renewal. Nurses should check with their state’s Board of Registered Nursing regarding use of CME credit.

Physician Assistants
The American Academy of Physician Assistants accepts Category 1 credit from AMA Category 1 CME organizations accredited by the ACCME.

Commercial Support
This course is supported, in part, by educational grants from industry, in accordance with ACCME accreditation Standards for Commercial Support. Appropriate acknowledgement will be given to all supporters at the time of the educational activity.
CONFERENCE FEES
Space is limited, so register early!
Included: Course tuition, breakfasts, breaks, lunches, and electronic course materials
Not Included: Travel costs, lodging, and parking

TRANSEPTAL WORKSHOP (DEPOSIT REQUIRED)
This workshop is complimentary for the first 18 physician registrants to conference. Transportation from the Marriott to the training facility will be provided.
Physicians must email education@baylismedical.com to register for this session.

WEDNESDAY SYMPOSIA (ADDITONAL FEE)
The fee covers all Wednesday sessions. Please select which symposia you will be attending.

ATTENDANCE POLICIES
Attendee Cancellation, Substitution, Refund
The course tuition is refundable, minus a $100 processing fee, if your cancellation is received in writing no later than Friday, February 3, 2017. Attendee substitutions are allowed, but notification must be made in writing by February 3, 2017. After this date, under no circumstances will refunds, credits, or substitutions be granted. No refunds or credits will be given to “no shows.”

Scripps Conference Modification or Cancellation
Scripps reserves the right to modify the course’s schedule or program as necessary. Scripps also reserves the right to cancel this conference, in which case a full refund of the registration fee will be provided. We are unable to refund any travel costs (flight, hotel, etc.) in the case of Scripps cancellation.

Recording and Photography Clause
Scripps reserves exclusive rights to record (audio and video) and/or photograph all conference proceedings for use in marketing materials, presentations and course content sales.

By completing this registration form and returning it to Scripps you are acknowledging compliance with all attendance policies. Please print clearly and provide your direct contact information in order to receive conference communications or updates.

HANDS-ON TRANSSEPTAL COURSE

With Matthew J. Price, MD and Paul Sorajja, MD

Wednesday, February 8th
8AM – 4PM
San Diego Marriott • La Jolla, California

Course Description
Designed for the Interventional Cardiologist performing complex left heart procedures (such as mitral valve repair or LAA occlusion).

This course will consist of:
• Hands-on Training with Live Model
• Didactics
• Dissection
• Simulators

Registration
Registration is on a first-come, first-serve basis. Please email education@baylismedical.com with your full name and contact information.
