This unique educational experience that includes a current review of the art and science of integrative holistic medicine as well as an opportunity for personal renewal and meaningful connection with other participants. The course format includes lectures, morning and afternoon question and answer panel discussions, small group discussions, focused track sessions and experiential morning programs. Faculty are renowned experts in integrative holistic medicine with experience in providing practical summaries on a wide range of mind-body-spirit topics.

Course Overview
Integrative holistic medicine embraces conventional and complementary therapies that are based in science. It focuses on the whole person-- mind, body, and spirit-- with a strong emphasis on the physician-patient partnership. Integrative holistic medicine is based on the following principles:

- Health is more than the absence of disease.
- A person is more than his/her symptoms, and healing requires a whole-person approach.
- Empowered patients make long-term and lasting changes that support healing and optimal health.

Research has demonstrated that nearly one in three Americans seek out complementary and alternative medicine to supplement conventional care. Patients are now asking their physicians about the medical value of these therapies. Since these approaches have not become routinely incorporated into most medical school curricula, health care providers are seeking trusted sources for learning about these techniques. The course was created with these needs in mind, and sets reasonable standards for the application of integrative holistic medicine.

As a nonprofit association, AHMA established a reputation of connecting and collaborating with numerous others, collectively providing the voices necessary for continued progress in the transformation of health care. AHMA’s leadership is proud to be among those actively involved in creating the new home for holistic practitioners, the Academy of Integrative Health and Medicine. More information can be found at www.holisticmedicine.org.

The American Board of Integrative Holistic Medicine (ABIHM) The ABIHM was founded in 1996, with a vision to transform medicine through the incorporation of the art and science of a whole person approach to health care. Since 2000, the ABIHM has set a recognized standard for knowledge by MD’s and DO’s in integrative holistic medicine, and has certified over 2,500 Diplomates.
