About the Courses

Scripps's Annual Clinical Hematology & Oncology program is a nationally accredited continuing medical education conference and is the largest annual hematology/oncology meeting held in the West, with the exception of ASH, ASCO and the San Antonio Breast Meeting. This conference is one of the few that combines topics in both hematology and oncology. As an exhibitor, you will have the opportunity to showcase your company's products

Please send your completed application and full payment to: Kristin Martinez • Scripps Conference Services & CME • 11025 North Torrey Pines Road, Suite 200, La Jolla, CA 92037 • Phone: 858-652-5483 • Fax: 858-652-5565 • E-mail: martinez.kristin@scrippshealth.org

and services to a targeted health care population already active in the fields of hematology and oncology.

The Annual Oncology Update course was designed specifically for busy community physicians who are unable to attend the American Society of Clinical Oncology (ASCO) Annual Meeting but still need an update on important topics in oncology. This conference ensures physicians have up-to-date clinical information needed to deliver the highest quality hematology-oncology care to their patients in small, medium, and large community-based practices. As an exhibitor, you will have the opportunity to showcase your company's products and services to a targeted health care population already active in the field of hematology-oncology.

Scripps' Annual Scripps Cancer Care Symposium: A Nursing & Advanced Practice Provider Collaboration is the result of combining the annual Advanced Practice Oncology Providers Symposium and the annual Oncology Nurses Symposium into one power house conference that combines topics in both hematology and oncology. We anticipate approximately 250-300 attendees from across the country to attend this fourth annual event. As an exhibitor, you will have the opportunity to showcase your company's products and services to a targeted health care population already active in the field of hematology-oncology.
