

# Myelofibrosis and Strategies for Disease Management: Key Considerations for Patient Care

Join us for an educational symposium on

Sunday, Feb. 16th, 2025  
7:00-8:00am

**Julie Huynh-Lu,**  
MS, PA-C,  
MD Anderson Cancer Center

**Sarah Chittenden,**  
RN, MSN, FNP,  
GSK Medical Affairs

*Myelofibrosis is a rare hematologic disorder characterized by constitutional symptoms, splenomegaly, bone marrow fibrosis, and cytopenias. In this interactive program, Julie Huynh-Lu will present an overview of myelofibrosis, highlighting the burden of the disease for patients and challenges with disease management. She will then be joined by GSK Medical Director Sarah Chittenden for a conversation on how providers can best support patients with myelofibrosis.*
