Join Us
For a unique educational experience that includes a current review of the art and science of integrative holistic medicine as well as an opportunity for personal renewal and meaningful connection with other participants. The course format includes lectures, a unique virtual question and answer process, networking opportunities, focused track sessions and experiential morning programs. Faculty are renowned experts in integrative holistic medicine representing multiple disciplines, with experience in providing practical summaries on a wide range of mind-body-spirit topics. This year is special as we celebrate the inauguration of our multidisciplinary global academy!

Target Audience
This educational course is for health care professionals who are seeking to expand their clinical competencies and advance their mind-body-spirit approach to healing. Credits are available for many health care professionals: physicians (MD, DO, ND), nurses, dieticians, acupuncturists, chiropractors, midwives, pharmacists, physician assistants and more.

2014 Conference Highlights
• Outstanding, comprehensive week-long educational course
• Evidence-based integrative holistic medicine presented by leading experts across many disciplines
• Interactive educational formats including: case studies, experiential demonstrations, and a unique virtual Q&A experience
• Pre-Conference Seminars, Focused Track Sessions, and a Post Conference that begins on October 30 for Health Care Administrators
• Main Conference materials available via mobile app and conference website
• Meaningful daily opportunities to interact with faculty and fellow attendees to establish a network of like-minded professionals
• Academy membership opportunities

Course Overview
Integrative holistic medicine embraces conventional and complementary therapies that are based in science. It focuses on the whole person: mind, body, and spirit, with a strong emphasis on the physician-patient partnership.

Integrative holistic medicine is based on the following principles:
• Health is more than the absence of disease.
• A person is more than their symptoms, and healing requires a whole person approach.
• Empowered patients make long-term and lasting changes that support healing and optimal health.

Research has demonstrated that nearly one in three Americans seek out complementary and alternative medicine to supplement conventional care. Patients are asking their physicians about the medical value of these therapies. Since these approaches have not become routinely incorporated into most health professional school curricula, health care providers are seeking trusted sources for learning about these techniques. The course was created with these needs in mind, and sets reasonable standards for the application of integrative holistic medicine. The course is valued for its evidence based, clinically relevant focus, and is appropriate for seasoned integrative practitioners as well as newcomers to the field.

CALL FOR ABSTRACTS
Research abstracts of original work dealing with integrative holistic medicine will be accepted in three categories:
1. Original Clinical Research
2. Basic Sciences / Review / Case Studies
3. Student / Fellow

Selected abstracts will be presented in poster format throughout the conference (Sunday-Thursday).

The deadline for submissions is September 30, 2014.

For additional information and a submission packet, visit http://bit.ly/RC6WTA

Educational Objectives
After attending this activity, participants should be able to:
• Discuss the importance of treating the whole person, mind-body-spirit;
• Assess the value of a physician/patient partnership in improving health;
• Evaluate the role of evidence-based integrative holistic medicine in the treatment and prevention of common medical conditions and chronic illnesses;
• Incorporate integrative holistic medicine treatments into patient care, referring to specialists as necessary;
• Utilize tools and resources provided to incorporate integrative holistic medicine into their practices/organizations; and
• Establish a network of like-minded practitioners from various disciplines and geographic areas.

The Academy of Integrative Health & Medicine (AIHM)

The mission of the expanded global academy is to implement the science of health and healing into practice by bringing leaders of medicine and the healing arts together into an academic and clinically focused community. This year, join the celebration as the AIHM offers membership to the conference community for the very first time.

Scripps Health

Scripps Health, a nonprofit health care system based in San Diego, California, includes more than 2,600 affiliated physicians and over 13,000 employees at five acute-care hospital campuses, home health care services and a network of clinics, physician offices and outpatient centers. Scripps is committed to contributing to the future of medicine through its clinical research trials, graduate medical education and continuing medical education programs. More information can be found at www.scripps.org.

The American Holistic Medical Association (AHMA)

The American Holistic Medical Association (AHMA) was founded in July of 1978. Back then, we created a safe harbor and training ground for the early pioneers in holistic medicine. Today’s members include holistic practitioners, organizational leaders, supporters, authors, and speakers. As a nonprofit association, AHMA established a reputation of connecting and collaborating with numerous others, collectively providing the voices necessary for continued progress in the transformation of health care. AHMA’s leadership is proud to be among those actively involved in creating the new home for holistic practitioners, the Academy of Integrative Health and Medicine. More information can be found at www.holisticmedicine.org.

The American Board of Integrative Holistic Medicine (ABIHM)

The ABIHM was founded in 1996, with a vision to transform medicine through the incorporation of the art and science of a whole person approach to health care. Since 2000, the ABIHM has set a recognized standard for knowledge by MD’s and DO’s in integrative holistic medicine, and has certified over 2,500 Diplomates. See www.abihm.org for important information about the future of Integrative Medicine and the ABIHM.
Healing the Healer: Cultivating Resiliency in Health Care

Current research highlights an epidemic of stress and burnout in health care providers. In this workshop, Dr. Daniel Friedland will share with you a 4-step Framework that integrates brain science, cognitive behavioral therapy, positive psychology and mindfulness practice to empower you with skills and practices to effectively navigate stress and experience greater meaning and joy in caring for your patients, your loved ones and yourself.

Daniel Friedland, MD, ABIHM, Chair, AIHM

Objectives:

After attending this activity, participants will be able to:
1. Recognize the factors that put you at risk for burnout
2. Identify the key skills and practices that promote your resilience
3. Apply 4 Steps to cultivate resilience and enhance your health, relationships and sense of meaning and fulfillment in your medical life

The ABIHM Board Certification Exam – Friday, October 31

The ABIHM Certification Exam (for MD’s and DO’s exclusively) establishes a standard of excellence and accountability for the practice of integrative holistic medicine. By meeting the ABIHM requirements for certification, you will join 2500 physician Diplomates who have undergone the only comprehensive, peer reviewed, psychometrically validated standard for MD’s and DO’s practicing integrative holistic medicine to date within the USA and Canada. Integrative medicine is a specialty undergoing transition; please see www.abihm.org for more information. The October 31st ABIHM exam will be the final time it is offered. The Academy of Integrative Health & Medicine will offer a multidisciplinary certification process broadly available to a variety of licensed health professionals.

Benefits of certification:
- You will have enhanced credibility for the practice of integrative holistic medicine.
- Your patients will benefit from your expanded knowledge.
- You will partially qualify for a fellowship waiver by the emerging American Board of Integrative Medicine (ABOM.org).
- You will be identified as a member of a recognized group with peer-reviewed, acknowledged standards and scientific basis.
- You will become a leader in the field of integrative holistic medicine.
- Your status as an ABIHM Diplomate will be honored by the AIHM, under which you may maintain ABIHM certification.
- You will qualify for the Diplomate discount rate on our online educational products and membership rates.

This is the final planned opportunity to become an ABIHM Diplomate before a new standard in integrative medicine is developed. See www.abihm.org/physicians/board-certification for details.

POST CONFERENCE

The Leadership in Integrative Health Certification Program for Health Care Administrators

F. Nicholas Jacobs, FACHE, AIHIM Treasurer, International Director, Sun Stone Management Resources

Health care is transforming toward models of integrative medicine, prevention, sustainability and community collaboration. By exploring key components of an Integrative Health model, this leadership program will provide essential clinical, financial and four administrative tools to respond to the emerging challenges of health care delivery. Utilizing a personalized comprehensive approach to health care, attendees will be joining a unique, rapidly growing group of healthcare executive leaders.

This certificate program is offered by nationally recognized experts in integrative medicine and administration, and will utilize an integrative health framework to connect with population health, ACO’s, the impact of the ACA, patient and employee satisfaction, community benefit, and sustainability. Evidence-based practices that address wellness and health with multiple benefits will be explored, preparing participants to become inspired change agents who will make a true difference in health care delivery.

Health care transformation will require unprecedented changes in treatment and care models. Whole person approaches to health and wellness have been shown to improve the health of populations and reduce the costs of care. Success stories of engaged institutions will be central to the conversation about how innovations can be shared and implemented.

This two day on site event will begin with the final day of the AIHM Inaugural Conference, including the Focused Track on Transformational Leadership, and culminate in a second day of highly practical education that provides tools to deliver more effective and satisfying care.

After the completion of an additional 6 hours of online content and post-tests (included in your registration fee) Certificates of Completion will be provided for approximately 20 total contact hours.
