Nutritional Medicine
Alan R. Gaby, MD, ABIHM

Dr. Gaby, author of *Nutritional Medicine*, is one of the world's foremost authorities on nutritional therapy. His Pre-Conference Workshop will review published research and clinical experience on the use of dietary modifications and nutritional supplements for the prevention and treatment of a wide range of conditions. See the ABIHM/Scripps Annual Conference Brochure for accreditation details.

Dr. Gaby's understanding of the clinical application of nutrition is unparalleled. I have been learning from him for more than three decades and treasure the opportunity to learn more.” - Joseph E. Pizzorno, ND
