REVISED: 03/06, 10/09, 09/13

 Home-based Care:HH 09/16/13HSPC 09/16/13

REVIEWED:

 SHAS:09/16/13**I. PURPOSE**

To establish policy and procedure for Business Associates Agreements (BAA) to enable compliance with the HIPAA Privacy Regulations relating to "Business Associates" (BA).

II. DEFINITIONS

- A. **Protected Health Information (PHI)**: is individually identifiable information, including genetic information, that is transmitted or maintained in any form or medium and that relates to the past, present or future physical or mental health or condition of a patient, the provision of health care to a patient, or the past, present or future payment for the provision of health care by a patient. Information is "individually identifiable" if it either identifies an individual or contains enough specific information to do so. See policy S-FW-IM-0203- Health Information, Access, Use and Disclosure for complete definition of "Individually Identifiable".
- B. **Electronic Protected Health Information (ePHI)**: Protected Health Information (PHI) stored or transmitted by electronic means.
- C. **Business Associate**: A person or entity (not an employee) who, **on behalf of Scripps Health**:
1. Performs a function involving the creation, receipt, maintenance, or transmission of PHI, (other than incidental) including claims processing or administration, data collection/analysis, processing or administration, utilization review, quality assurance, patient safety activities, billing, benefit management, practice management, re-pricing; or
 2. Provides legal, actuarial, accounting, consulting, data aggregation, management, administrative, accreditation, or financial services to or for Scripps, where the provision of the service involves the disclosure of individually identifiable health information from Scripps.
 3. Exceptions to the Business Associate Standard are found in the HIPAA Privacy Rule 45 CFR 164.502. If this exception is met, Scripps is not required to have a business associate contract or other written agreement in place before protected health information may be disclosed to the person or entity. The most frequent exception applicable at Scripps is for disclosures made by Scripps to another health care provider for treatment of the individual.

- D. **Incidental Disclosure:** The possible disclosure of PHI due to exposure to information while performing a service for Scripps that does not directly involve access, use and disclosure of PHI. Examples include, janitorial service, non-patient care employees/vendors in the patient room or waiting area.

III. POLICY

- A. Under the Privacy Rule, Scripps Health cannot disclose protected health information (PHI) to its business associates without having in place a written contract that includes specific privacy protections. Business associate agreements (BAA) are critical to safeguarding PHI when used or disclosed by service providers such as third-party administrators, benefit consultants and attorneys – not otherwise covered by the privacy rules.
- B. Scripps Health Legal Department has developed a standard HIPAA business associate contractual language (see Related Form A: Scripps Business Associate Agreement) that should be used in any newly-established business associate relationship or any contracts with existing relationships that are being renewed. The BAA is generally an addendum to the main contract; however in some contracts it may be embedded into the main contract rather than an addendum.
1. At the discretion of Scripps Legal Office, an alternate BAA with more stringent requirements/specifications may be used with specific Business Associates that are deemed higher risk. The Scripps Legal Office generally reviews the higher risk contracts, and will therefore determine when a contract requires the more comprehensive version.
- C. Only a Scripps Legal Office attorney can approve signing a BAA that is not the Scripps standard BAA (e.g. the Business Associate's version), or making changes to the Scripps BAA if requested by the Business Associate.
- D. Signed Business Associate agreements are to be scanned and forwarded for logging and retention in the Scripps Legal Office Contract Management system, effective September 23, 2013. A listing of signed BAA's will be maintained by Scripps Legal Office and made available to management in the Scripps Employee Portal/Manager's Tool Box.
- E. Evaluations of the services a third party/vendor will provide may result in the determination that the relationship does not meet the definition of a Business Associate. However, the third-party/vendor's functions, activities or services might incidentally include access to protected information and raise other confidentiality concerns. It is recommended that the mutual agreement/contract with such third-party/vendors include appropriate provisions supporting Scripps' privacy and security requirements. The contract terms should include an obligation to protect each patient's right to privacy, security and the confidentiality of their medical information.

IV. RESPONSIBILITIES

- A. Individuals responsible to, and allowed to enter into contractual arrangements, (in accordance with Contracting and Signing Authority policy, S-FW-LD-1001), will:
 - 1. Ensure that Business Associate agreements are signed with associates, vendors or third parties whom are considered “business associates,” as a part of any new or existing contractual engagement with Scripps Health.
 - 2. Ensure that all signed Business Associate Agreements are sent to the Legal Office to be entered into the legal department contract management system (i.e. Upside Contract).
 - i. At this time Legal, Corporate Compliance, Information Services and designee, will have access to the contract management system. In the future other departments (at the discretion of Legal) may have individuals that are granted access to system.
 - ii. If the person accountable for a contract is not a designated user of the legal department contract management system, he/she shall forward the signed BAA or master contract containing the BAA provisions to Corporate Compliance or the Legal Office.
- B. The Scripps Legal Contracting Office will:
 - 1. Manage the contract management system; and
 - 2. Maintain the current list of signed BAA’s obtained (posted on the Employee Portal/ Manager’s Toolbox).

V. PROCEDURES

- A. Evaluate the relationship and/or need for a Business Associate Agreement (see Related Forms B- Prospective Business Associate Third party/Vendor Guide and C BAA Decision Tree).
 - 1. If unclear whether a relationship requires a BAA, contact Scripps Privacy Office or Scripps Legal Department for assistance.
- B. Determine the existence of a signed current BAA by reviewing the BAA Listing on the Employee Portal.
- C. If BAA (or core contract content addressing BAA requirements) is not on file, provide the business associate with the Scripps Health Business Associate Agreement to sign. (Related Form A)
- D. Upon receipt of signed Scripps Business Associate Agreement from the third party/vendor
 - 1. Scan and send by email signed agreement as outlined in “Requirements” section A2 (see previous page).
 - 2. When forwarding include in the email demographic information about the third party/vendor (i.e. company name, address, etc.).
- E. Do not sign Business Associate Agreements submitted to Scripps from outside organizations, or a Scripps BAA that has been altered or revised by the BA.

- F. If the third party/vendor requests Scripps sign their BAA or expresses concerns or indicates that negotiation is needed, contact Scripps Legal Department for consultation and negotiation directly with the business associate.
- G. When completing *New Vendor Set-Up & Reactivation Authorization* form – cost center manager must verify necessity and existence of a signed BAA, and either:
 - 1. Check off on the fact that BAA is not needed; or
 - 2. If BAA is needed, document that signed BAA is completed before checking off and approving the form.

- Business Associate Agreement Policy; S-FW-LD-1007 10/09

DEVELOPMENT SUMMARY

09/13 Revision: Business Associate Agreement (BAA) updated to reflect recent regulatory changes. Policy enhancements include:

- Update the definition of a BAA to align with 2013 HIPAA revisions.
- Only Scripps Legal may sign a non-Scripps standard Business Associate Agreement.
- Management who enters into Contracts are responsible for ensuring a BAA is signed as appropriate and forwarded to Legal to be uploaded into the Contract Management System.
- Legal may determine, for those vendors deemed higher risk, that a more stringent BAA is necessary.

ENDORSEMENTS and APPROVALS
