Structural Heart Intervention and Imaging 2024: *A Practical Approach*

February 7-9, 2024 – Hyatt Regency La Jolla at Aventine • San Diego, California

LAA CLOSURE, TAVR, MITRAL AND TRICUSPID VALVE REPAIR AND REPLACEMENT, AND MORE

Conference Overview

Scripps' Structural Heart Intervention and Imaging conference is designed to provide a practical, cutting-edge, and live case-based assessment of structural heart disease interventions and cardiovascular imaging. The course will place a strong emphasis on the collaborative nature of these procedures across many disciplines within cardiology. Faculty will discuss clinical guidelines on patient selection, pre-procedural assessment, procedural tips, techniques, and challenges (including concurrent imaging) during the performance of the procedures and conclude with assessment of outcomes and future directions.

Conference Highlights

- Multidisciplinary expert faculty from renowned institutions emphasizing a team approach to care
- Combination of educational formats including live demonstrations of catheter-based structural heart disease interventional procedures with intraprocedural imaging, clinical-pathological correlations with ex vivo cardiac specimens and pertinent didactic lectures
- Interactive formats, panel discussions, Q&A, and more
- Live satellite case transmissions, expanded satellite symposia and workshops
